NOTES

p. 1, para. 3

Cross reference not clear. Should be more specific, i.e.
p.3 to p.___.

Should the making of machine runs be mentioned here as a
service and cross referenced to pp. 14 - 15?

p. 5, para. 2

Too didactic. Make it more subtle and convincing by
describing the advantages of the use of photographs.

pp. 5 - 6

Suggest that service functions be shown graphically.

pp. 7 - 8, Aerial Photography

A brief explanation that the GR acts as an agent in
procurement of aerial photography would be helpful and should
indicate the repository agency or agencies. This can best
be done here where first discussed rather than on p. 18, as
at present.

p. 10, para. 3

Note suggested change in order of presentation. Also
suggest cross reference to (c), p. 12

p. 13, last sentence

Note suggested change.
